Betty, This little bit is all that was in the
 system. One interesting thing though
 is that the run date of Dec. 25, 83 is not
 the last time information was added because
 the numbers on the left hand side represent
 certain components in the data base. The
 300 which shows the last update date is
 840604. That means something was entered
 in June of 84 - but I don't know what it
 was.
